About

The Office of Out of School Time Grants and Youth Outcomes (OST Office) supports equitable access to high-quality, out-of-school-time programs for District of Columbia youth¹ through coordination among government agencies, targeted grant-making, data collection and evaluation, and the provision of training, capacity building, and technical assistance to out-of- school-time providers.

Learn24 is a network of before school, after school, and summer programs, also called out-of-school-time (OST) programs, launched by Mayor Bowser in 2017. The OST Office stewards the Learn24 brand to foster awareness of the OST Office, The Institute for Youth Development, Commission on Out of School Time Grants and Youth Outcomes (OST Commission), higher education partners, District agencies, philanthropic partners, and the hundreds of nonprofits and schools that offer programs to youth outside the school day.

A decade of research indicates that youth who regularly participate in quality OST programs benefit in terms of their academic performance, social and emotional development, and health and wellness. In addition, youth participation in OST programs can result in improved school attendance, higher graduation rates, lower dropout rates, stronger academic performance, and improved positive behaviors and work habits.

The OST Commission and the OST Office support access to, and cultivation of, high-quality OST programs by:

- Building the skills for adults who work with youth in OST programs through workshops and conferences organized by The Institute for Youth Development within the OST Office
- Working directly with OST program leaders and staff through observation, assessment, and coaching to improve program design and implementation
- Communicating the importance of program quality to key stakeholders to increase accountability across the network of OST providers
- Providing access to funding; and
- Measuring and reporting on outcomes for youth who participate in programs across the District of Columbia.

¹ Youth is used throughout the document to include children and adolescents in Kindergarten through 12th grade.

About the OST Commission

The OST Commission is a public body composed of engaged residents and representatives from government agencies. The mission of the OST Commission is to support equitable access to high-quality OST programs for District of Columbia youth through coordination among government agencies, targeted grant-making, data collection and evaluation, and the provision of training, capacity building, and technical assistance to OST providers. The OST Commission guides the OST Office to offer resources and support to ensure a citywide system of high-quality OST programs.

Vision

All youth across the District of Columbia have the skills, attitudes, and knowledge necessary to achieve and thrive in school, the workplace, and their communities.

Values

- Youth Voice
Youth contribute directly to decisions that impact their lives.
- Equity
Decisions are made recognizing structural racism with a determined focus on dismantling those systems and achieving equitable outcomes for youth.
- Commitment to Learning
Continuous improvement and learning leads to stronger and more effective systems, organizations, and programs.
- Mutual Respect and Responsibilities
Respecting the unique insights, resources, and contributions of all stakeholders leads to the realization of a collective vision.

Strategic Plan 2019-2022

On August 8, 2019, the OST Commission approved the 2019-2022 Strategic Plan. Over the next three years, the OST Commission and the OST Office focused on four strategic priorities anchored in the values of youth voice, equity, commitment to learning, and mutual respect and responsibilities. The OST Commission and OST Office are working to develop a new three-year strategic plan for 2023-2025 which will include community and stakeholder input. The OST Commission Committees listed below align with the four strategic priorities identified and work to support the development of the updated Strategic Plan based on specific committee interests and goals.

Funding and Capacity Building

The OST Commission prioritizes closing the gap in OST program capacity; this is achieved when all Washington, DC youth have equitable access to diverse, high-quality programs in locations convenient to them. The OST Commission supports Learn24 in closing the gap in OST program capacity by guiding the OST Office in its mission to provide financial, technical, and educational resources to a wide range of OST providers, large and small, who have established trust with their communities and have experience meeting the needs of their communities.

Quality

High-quality programs engage youth in the authentic expression of voice and choice by providing safe and supportive environments, caring adults, and structured activities. The OST Commission prioritizes ensuring that all Washington, DC youth have equitable access to high-quality OST programs. The Quality Committee sets guidelines for the OST Office on how to define, measure, assess, and increase program quality.

Outcomes

Outcomes are the strides the OST Commission expects youth will make through participation in OST programs. Outcomes must evolve with young people as they grow physically, socially, emotionally, and cognitively. The OST Commission prioritizes supporting Learn24 in ensuring that all Washington, DC youth have access to programs that allow them to achieve outcomes. The Outcomes Committee guides the OST Office on how to define, measure, and assess outcomes.

Coordination and Collaboration

To build a strong and sustainable system that supports high-quality OST programs, the OST Office relies on the help and input of youth, families, OST providers, experts, and government agencies. The Coordination and Collaboration Committee encourages connection among various stakeholders including: the OST Office, government agencies, nonprofit entities, parents, and youth.

The OST Strategic Plan 2019-2022 may be found at [Learn24.dc.gov](https://www.learn24.dc.gov).

COVID-19 Impacts

Covid-19 had a marked and direct impact on School Year 2020-21 and Summer 2021 programs. The World Health Organization's declaration of a pandemic and Mayor Bowser's order of a public health emergency on March 11, 2020 and subsequent orders changed the:

- method that most programs used to interact with youth,
- ability for programs to connect with the youth enrolled, and
- process for programs to recruit additional youth.

School Year 2020-21 Impacts:

- Many organizations offered virtual or hybrid programming.
- The requirement for programs to conduct youth surveys and conduct self-assessments was suspended due to virtual programming.
- All programmatic site visits were conducted virtually.
- Some grantees offered in-person programming with DC Health guidance and safety measures in place.

Summer 2021 Impacts:

- Most programs provided some or all in-person programming with DC Health guidance and safety measures in place.
- The requirement for programs to conduct youth surveys was suspended.
- Most programmatic site visits were conducted virtually, and some were held in-person.

The 2021 Needs Assessment was suspended as a direct result of COVID-19. The OST Commission and OST Office will complete the Needs Assessment in 2022.

Fiscal Year 2021 Grant Funds

The OST Office received \$12,309,565 in local funds to be used as grants to nonprofits that offer OST programs.

OST Office Fiscal Year 2021 Grant Administration

The OST Office brought grant management inhouse in Fiscal Year 2021 and as a result, increased the number of full-time positions to include a Supervisory Grant Management Specialist, four Grant Management Specialists, and two Data Analysts. The OST Office releases various grant competitions; collects and monitors submissions; helps to recruit, train, and support grant reviewers; works directly with the grantees on grant agreements, financial reports, grant compliance, and invoices. Grant payments are made directly to grantees through the DC Vendor Portal.

Description of Grants and Timeline

The chart below represents the number of grants awarded, youth proposed to be served, and award amounts for each grant competition released in FY21. There were nine OST grant competitions in FY21. Of those, three competitions were specifically for grantees that previously received Learn24 grant funding that was continued. The final competition was the Year Round Invitation Only grant that provided funds to grantees awarded in both the school year and summer competitions from the previous year, that allows those grantees to become Year Round grantees.

About the Grant Competitions

2021 Summer Strong DC

This opportunity was available to any nonprofit that provided a structured, supervised learning, or youth development program that included an academic recovery component to address learning loss due to COVID-19 impacts and was held between June 14 and August 27, 2021, for a minimum of five hours per day, five days a week, for five consecutive weeks. Some grantees also supported DCPS Summer Acceleration Academies at specific DCPS sites.

2021 Summer Strong DC Small Nonprofit

This opportunity was only available to small nonprofit organizations with budgets of less than \$250,000. Applicants had to provide a structured, supervised learning, or youth development opportunity between June 14 and August 27, 2021, for a minimum of five hours per day, five days a week, for five consecutive weeks.

2021 Summer Strong Coordinating Entity

The coordinating entities served youth residing at short-term family housing or DC Housing Authority communities. The coordinating entities had to subcontract with grassroots community-led entities to provide a rich variety of summer experiences for the youth. The summer camp had to operate between June 7 and August 27, 2021 for a minimum of eight hours per day, five days a week, for six consecutive weeks.

School Year 2020-21 OST and School Year 2020-21 OST Small Nonprofit

These grant competitions were released in Fiscal Year 2020 to fund OST programs to serve school age District youth that would run between October 1, 2020 and September 30, 2021. Small nonprofit organizations have operating budgets of less than \$250,000.

School Year 2020-21 OST Continuation and School Year 2020-21 OST Small Nonprofit Continuation

These grant competitions were released in Fiscal Year 2020 to fund current grant recipients that received School Year funding within the past two fiscal years. These funded organizations provided OST programs from October 1, 2020 through September 30, 2021.

Fiscal Year 2021 Invitation Only Year Round OST

This competition was released only to organizations that received both a School Year 2019-20 OST and 2020 Summer Strong DC grant to serve school-age children and youth with school year and summer programs. This competition was created to reduce the reporting requirements of the two grants and allow those programs to open summer enrollment at the same time as Department of Parks and Recreation (DPR) and DC Public Schools (DCPS).

Fiscal Year 2021 Year Round Continuation

This continuation competition was released to organizations that were funded in the previous Year Round Invitation Only competition within the past two fiscal years. The grantees received funds equal to the amount of funds received in the previous fiscal year. These grants serve school-age children and youth with school year and summer programs.

Conclusion

This annual report is meant to provide an overview of grant competitions and funding and provides detailed and specific information about 1) grantees and any subgrantee, 2) a description of the specific services provided to youth, 3) the names of any other entities providing services, 4) the location(s) of the services and demographic profile of service(s) to recipients, and 5) the amount of grant funds dedicated to program costs and other expenditures.

The grant making process is only a portion of the work that is encompassed by the OST Office. The OST Office also houses the Institute for Youth Development which provides professional development, technical assistance and quality programming support through the YPQI Quality Cohort and the work with the David P. Weikart Center for Youth Program Quality. The OST Office continues to work in partnership with other agencies, partners, community members, and stakeholders to support the out of school time landscape in the District.

Details About the Grants

The following list details the grantees that received awards, provides an overview of the programming offered, the ages and/or grades of the attendees, the grant competition(s), and the award amounts distributed in FY21. Capital City Public Charter School

Program Description: This club was offered as a hybrid model with both in-person and virtual meetings. Cap City provided students the opportunity to learn about the playwright and the director of the play and students participated in interesting discussions and fun activities, crochet club, virtual fitness classes, mindful movement, music, art, and storytime activities. Weather permitting, they met in the Capital City garden to learn how to be garden caretakers! Students borrowed guitars from the school (if they didn't have their own) and learned to play! Students created kindness art projects for the community, and worked together to write an original play inspired by an interesting postcard. Students then performed, directed, and recorded the play (using simple props, costume, and scenery pieces.) Club members produced and hosted their own virtual talk show. Students immersed themselves in the world of Science, Technology, Engineering, and Math (STEM) and enjoyed a full summer camp as well.

Center for Inspired Teaching

Program Description: Center for Inspired Teaching provided a credit-bearing afterschool course that enrolls students from DC Public Schools (DCPS) and public charter schools. Students spent the first semester practicing the skills of historians with a deep (content) dive into the Great Migration. In the second semester, each student worked as an intern at a museum or historic site such as Ford's Theatre or the National Mall. Speak Truth brought together middle and high school students from public and private schools once a month to discuss matters of concern to them. Students chose the topics and facilitated the discussions.

Children's Legacy Theatre

Program Description: Students participated in writing, creating their own poetry, and spoken word pieces speaking on childhood, lifestyles, health & wellness, politics, and many more topics. After pieces were completed, students published their own books. Followed with a virtual meet & greet explaining the inspiration behind their pieces, life challenges, and simply how they persevered through it all. Children's Legacy Theatre Acting Classes and Drama Lessons are designed to engage young actors and actresses in the NOW. In the acting classes and drama lessons, students use their imagination to ground themselves in character, expand their senses while using the space, and dig deep into the circumstances that the character must live in. Social and emotional learning (SEL) is the set of skills, knowledge, and behaviors involved in understanding and managing emotions, setting positive goals, feeling empathy for others, engaging in positive relationships, and solving problems effectively. There are also video and graphic teams that collected, collaborated, and created concepts for the book, audio podcast, and company merchandise.

City Gate

Program Description: City Gate offered a six-week-long program that was designed to involve children interactively and engage them with new insights and experiences during the summer months. It provided academic, social, and emotional support for children already impacted by poverty and living in underserved neighborhoods at a time when traditional summer programs and recreation may be absent. The overarching issue is making sure education continues for these children even when schools are closed, especially after a year of remote learning. This helps "learning loss" especially for low-income students in under-resourced neighborhoods.

E.L. Haynes Public Charter School

Program Description: As a school, E.L. Haynes Public Charter School recognizes social emotional learning is as important as academic learning, especially during these formative years of a child's development. Outdoor play not only provided access to ALL students, but gave students opportunities to socialize and connect with their peers. Drama Club is designed for students interested in learning about the aspects of theater. All club members worked on building self-confidence, public speaking, stage terminology, develop emotional intelligence, encouraging physical movement and sharpening creativity and imagination. All members had the opportunity to participate and perform in front of their peers and the Haynes community. GSA is a space for LGBTQIA+ and straight teachers and students to come together to build a safe and social school community. We played games, had discussions about relevant topics, and learned about ourselves, each other, and the world. Together, we built strong relationships and used them to make the world around us a better place. Comic Book Club is the place for scholars who love to read, draw, write, and learn about the vast industry of comics or graphic novels.

For Love of Children

Program Description: For Love Of Children offers afterschool 1-1 Tutoring in Reading Language Arts for grades 2nd - 12th and 1-1 Tutoring in Math for grades 2nd - 12th. This program is directed at serving 8th-12th graders as they prep for their PSAT/SAT exams. Students had the opportunity to practice and acquire the skill sets necessary to improve their scores. This program directly served 11th-12th graders, focusing on college and career readiness. Students learned the ins and outs of the college process, applied to schools and scholarships as they prepared for their post-secondary careers. Students spent time reviewing their favorite books, discussing them, and creative writing. They learned the basic parts of written literature, explored different genres, and unlocked the wonderful world of fictitious and non-fictitious characters. Students also used this knowledge to create their own blogs and social media content to recommend and critique the books that they read. FLOC's Summer Camp served under-resourced students in grades 2-12 who tested below grade level in either reading or math, as well as students who will be a first-generation college student.
